Should the bidder become aware of any circumstances that may cause a conflict of interest during the term of this contract, the bidder shall immediately notify the County. If the County determines that a conflict of interest exists, the County may require the proposer to take action to remedy the conflict of interest or terminate the agreement without liability. The County shall have the right to recover any fees paid for services rendered by the bidder which were performed which a conflict of interest existed and did not notify the County within one week of becoming aware of the existence of the conflict of interest.

Special Terms and Conditions

16. **Quantity – See Attachment A:** The County has 103 separate accounts served currently with firm gas supply under the Atlanta Gas Light tariff G-11. Two accounts serve natural gas vehicle fueling stations, one account is for a waste sludge incinerator, and two are for the county detention facility (jail). The remaining accounts are generally used for production of space heating, domestic hot water, cooking, and laundry services.

See Attachment A for specifics on the County historic load requirements for the past year. Facility equipment and load requirements are generally expected to remain consistent with historic requirements for the next twelve months, with any significant adjustments resulting mainly from weather variations. Exceptions are those accounts recently established for new facilities, however any new facilities with current gas service are identified, and can be assumed to have demand and seasonal loads consistent with the bulk of the accounts listed.

The County intends to make every effort to keep the selected marketer informed as to significant load changes based on facility or equipment additions, deletions, or

modifications. The successful bidder must agree to supply 100% of the County requirements regardless of load changes. The quantity shown in the bid form is a historic annual requirement. Actual usage will vary from this quantity and the County is under no obligation to purchase the quantity indicated.

17. **Qualitative Requirements – See Attachment B:** Minimum requirements for meeting the County needs are indicated in Attachment B. All questions must be completed.
18. **Pricing – See Attachment C:** Standard fixed and market-based pricing bids are requested in Attachment C. The County is always looking toward new and innovative approaches to meeting its requirements. Although not required, each supplier is encouraged to submit alternate bids for consideration that you believe might add value for the County.

Seasonal Disconnections: The County has historically turned off heating only accounts during summer months (seasonal disconnections). It is anticipated that approx. 15 accounts will inactive prior to the start of this contract and will require re-activation in the fall, 2009. The accounts targeted for seasonal disconnection are identified on Attachment A.

The County has requested in Attachment B that bidders indicate their willingness to coordinate on and off orders for seasonal disconnects, and should indicated any associated costs in Attachment C.

The County also requests in Attachment B that bidders indicate their willingness to offer flexible conversion of accounts from market pricing to firm pricing for the balance of any given contract period or extension thereof.

19. **Contract – See Attachment D:** The contract term is expected to be one year, with an option to renew for two additional similar terms. The option to renew can be cancelled by either party by giving 60 days written notice. All bidders are asked to indicate their willingness to comply with the key terms indicated in this outline by signing Attachment D.
20. **Financial Requirements:** If requested by the County, each supplier must provide a copy of the company's most recent audited financial statements and annual report. Where another company has any financial interest in the proposed supplier, such interest must be explained, and a copy of the most recent audited financial statements and annual report of the company with such financial interest must be provided.
21. **Financial Responsibilities:** If the Bidder fails to deliver the quantity of gas required by County, Bidder shall be liable for and remit within ten (10) days of presentation an invoice from County for any direct incremental costs above the contract price of replacement supplies purchased by County plus any related penalties or charges. This shall include the failure of the marketer to obtain control of an account from the current

supplier if the County has met all contractual obligations regarding the supply of that account.

22. **Evaluation of Bids:** The contract will be awarded to the responsible bidder whose bid will be the most advantageous to the County, price and other factors considered. The County will make the determination. The County reserves the right at any time to reject any and all bids, to waive informalities and technicalities, to award portions of the bid, and to award contracts consistent with the County and the laws governing the State of Georgia.
23. **Alternate Pricing Bids:** Pricing sheets (Attachment C) are provided assuming bidders will offer pricing for consumption that may or may not include independent delivery charges assessed by the marketer based on account size (DDDC).

Further, the County is always looking toward new and innovative approaches to meeting its requirements. Although not required, each supplier is encouraged to submit alternate bids for consideration that you believe might add value for the County, even if it involves some well-defined risk assumption by the County.

Should a marketer choose to offer multiple pricing options (such as an “all inclusive” per therm price, and an alternate “per therm plus DDDC delivery” price option), bidder should make additional copies of the pricing pages, or create pricing pages of their own that fully reflect all costs associated with any options offered.

Historic Load Information and Accounts Overview

Attachment A

1. Account by Account Historic Data

Accompanying this Sealed Bid is an electronic file (Attachment A-1) containing information on all gas accounts included in this bid. The file includes a recent 12 months usage history for each account when available, referenced to the current AGLC account number and service address. Those accounts serving facilities that may be included for seasonal disconnection are highlighted. Where less than 12 months of history are shown, the accounts serve new facilities added in the past 12 months. (See "Comments" on the account listing.)

2. Accounts Overview

Group A: Miscellaneous Facilities (all accounts except those listed below): This load is mainly comprised of space heating and water heating requirements of typical governmental service buildings (office, libraries, parks and recreations, vehicle and non-vehicle maintenance facilities, etc.). Group B: Natural Gas Vehicle Accounts: There are two accounts identified as CNG accounts on the diskette of usage data. Account 18801557 - 1940 County Services Parkway: Our primary CNG passenger vehicle fueling facility. The facility is owned by Atlanta Gas Light Co. under their CNG fueling station tariff, and the required monthly facility charge is billed by AGLC through the marketer.

Account 2673380153 - 800 South Marietta Parkway: This is a customer owned facility serving primarily the county's transit bus fleet. It is not subject to the AGLC CNG rate.

Group C: Sludge Incineration Account: Account 4990655540 - 5175 S. Atlanta Rd.: A single account serving a sludge incinerator at the wastewater treatment facility.

Group D: Adult Detention Facility: Two accounts at 1825 County Services Parkway. Account 6258796053 is for the existing detention facility (jail) and includes usage for heating, water heating, laundry and kitchen uses. Account 977756371 (established Dec. 2008) is for a new tower housing inmates and center administration services. It is still in construction, with occupancy scheduled in late Winter, 2010.

THIS AGREEMENT, made and entered into on _____ by and between COBB COUNTY GOVERNMENT, with its principal place of business at 1772 County Services Parkway, Marietta, Georgia, (hereinafter referred to as "Buyer") and _____, with its principal place of business at _____ (hereinafter referred to as "Seller").

W I T N E S S E T H

WHEREAS, Buyer desires to purchase and receive supplies of natural gas; and

WHEREAS, Seller has supplies of natural gas available for sale and delivery to Buyer; and

WHEREAS, Buyer and Seller desire to enter into an agreement providing for the purchase and sale of gas on the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of the representations and agreements contained herein, Buyer and Seller agree as follows:

ARTICLE I

Scope, Agreements and Definitions

1.1 Scope. Subject to the provisions of this Agreement, Buyer agrees to purchase and receive natural gas from Seller as a participant in Atlanta Gas Lights (AGL or Distribution Utility) competitive retail natural gas program in accordance with the provisions of that program and on the terms and conditions set forth in this Agreement. Seller agrees to sell and cause to be delivered natural gas to Buyer under the provisions of this Agreement, and for the price, term, and quantity set forth in the Transaction Agreement. Buyer understands and agrees that it will be responsible for the payment of amounts invoiced by Seller for the natural gas Seller delivers under this Agreement. This Agreement applies only to the AGL account(s) identified in the Transaction Agreement.

1.2 Transaction Agreement. Buyers specific terms for the purchase of natural gas under this Agreement shall be set forth in the Transaction Agreement, attached hereto as Appendix A. In the event of a conflict between the Transaction Agreement and the Purchase and Sale Agreement, the Sale and Purchase Agreement shall govern.

1.3 Definitions. Unless the context requires another meaning, the following terms shall have the meaning hereinbelow set forth under this Agreement:

- a. Agreement shall mean this Natural Gas Sale and Purchase Agreement and any Transaction Agreements in the form attached as Appendix A that have been executed and attached as Appendix B and Appendix C.
- b. Citygate Differential shall mean a quoted fixed price per MMBtu for getting natural gas purchased at the NYMEX Closing Price delivered to the Distribution Utilities receipt point on the interstate pipeline.
- c. Citygate Delivered Fixed Price shall mean a fixed price per MMBtu delivered to the Distribution Utilities receipt point on the interstate pipeline.
- d. Firm shall mean that either Party may interrupt its performance without liability only to the extent that such performance is prevented for reasons of Force Majeure.

- e. NYMEX Closing Price shall mean the price for Gas futures posted by the New York Mercantile Exchange on the last Day of trading for the applicable delivery Month.
- f. Contract Price shall mean the amount expressed in U.S. dollars per MMBtu, as set forth in the Transaction Agreement.
- g. Transaction Agreement shall mean the form that sets forth the material terms of a Gas sales and purchase transaction, a sample of which is attached to this Agreement at Appendix A.

ARTICLE II

Quantity and Point of Delivery

2.1 Quantity. Subject to the terms of this Agreement, Buyer agrees to purchase and receive from Seller and Seller agrees to sell and cause to be delivered all firm natural gas needs for the accounts designated in this agreement. These needs are fully expected to be similar to historic gas usage patterns plus reasonable variances. In the event that Seller nominates an excessive or deficient amount of gas, and the Interstate Pipeline or Distribution Utility assesses any fee, penalty or charge for failure to satisfy any requirement, the Seller is solely responsible for payment of these charges (provided that Buyers current gas usage reflects its historic gas usage plus reasonable variances and variances due to weather). It is understood that accounts may be added or removed from service during the term of this agreement under Amendments to Appendix A, the Transaction Agreement. Unless these account additions or removals result in material changes to gas usage volume or load patterns, Buyer will offer and Seller will include their natural gas needs under the same terms and conditions of the initial accounts established under this agreement. For all accounts resulting in a material volume or load change, Buyer can elect to select a separate Seller or include in this Agreement through a separate Transaction Agreement with separate terms and conditions.

2.2 Point of Delivery. This is an FOB destination agreement. The destination point is the Distribution Utility citygate. Title to all natural gas delivered under this agreement shall pass from Seller to Buyer at the citygate.

ARTICLE III

Price

3.1 Price. The Contract Price for gas sold hereunder shall be specified in the Transaction Agreement. This price shall include any and all costs associated with the delivery of natural gas to the Buyer. The costs include, but are not limited to all administrative costs, Seller's purchase price, gathering cost, transportation costs, gas shrinkage costs, storage costs, fuel charges, Gas Research Institute charges (GRI), Federal Energy Regulatory Commission Annual Cost Adjustment charges (ACA), any take-or-pay charges by the transporter, pipeline and distribution gas pooling charges of Atlanta Gas Light, all applicable royalties and taxes, and all costs associated with nominating and balancing. Buyer shall be responsible for payment of no more than 100% of Atlanta Gas Light customer charges applicable to Buyer and assigned to Reliant for Buyers account(s).

3.2 Taxes. Seller shall pay all applicable taxes, use and gross receipts taxes or charges arising prior to the Point of Delivery. Buyer shall pay all applicable taxes or charges arising at and after the Point of Delivery. Buyer is tax exempt and will provide Seller with evidence of such.

3.3 Computations. All computations related to prices and indices performed under this Agreement shall be rounded to four significant decimal places (\$0.0000).

ARTICLE IV

Term

4.1 Term: For a period of twelve (12) months, from the 1st day of June, 2009, until the close of gas business on the 31st day of May, 2010, (Contract Term), the Seller shall provide the Buyer with such supplies of natural gas for the price, term, and quantity set forth in the Transaction Agreement. The Buyer reserves the right to pursue two extensions of this Agreement for a period not to exceed twelve (12) additional months per renewal term (24 months total). No later than 60 days before the expiration of the initial term of this Agreement the Buyer shall notify the Seller of Buyer's intent to pursue an extension to this Agreement. The Seller shall, within 15 days of receipt of this notification, indicate in writing to the Buyer its willingness to extend the Agreement under the same terms and conditions as the original Agreement, excepting the Seller shall notify Buyer of any changes in the price or quantity specified in the Transaction Agreement. The option to extend or not extend the Agreement shall then rest with the Buyer. Notwithstanding the terms above, this Agreement shall be governed by provisions of O.C.G.A. Section 36-60-13 as amended (Ga. L. 1988, p. 1954 section 1: Ga. L. 1996, p. 441, section 1.). This Agreement is further subject to and contingent upon annual appropriations by the Buyer, by and through its Cobb County Board of Commissioners, and shall terminate immediately and absolutely in the event that appropriated and unobligated funds are no longer available to set aside the obligations under this Agreement, provided that those sums payable during the calendar year in which the failure to appropriate shall be paid.

ARTICLE V

Quality

5.1 Quality and Measurement. All natural gas delivered by Seller to Distribution Utility shall be merchantable and shall upon delivery conform to the quality specifications and heating value generally acceptable to the Distribution Utility. The parties agree that the measurement of gas purchased and sold hereunder shall be performed by the Distribution Utility. Either party may contest the Distribution Utilities determination of quantity, but both parties agree that the Distribution Utilities ultimate decision on such matters is final and binding on both parties.

ARTICLE VI

Liability

6.1 Limitation of Liability. Liability is limited to direct actual damages as the sole and exclusive remedy and all other remedies or damages (at law, in equity, tort, contract or otherwise) are expressly waived. In no event will either party be liable for consequential, incidental, or punitive damages, lost profits or other business interruption damages. Liability limitations are without regard to cause.

ARTICLE VII

Warranty

7.1 Warranty and Indemnification. Seller warrants that, at the time of delivery all gas sold hereunder to Buyer, Seller shall have good title to and the right to sell such gas, and that such gas is free and clear of liens, encumbrances or claims. Seller agrees to hold harmless, defend, and indemnify Buyer against all suits, debts, accounts, damages and costs arising from or out of any adverse claims relating to Seller's title or right to sell such gas prior to the Point of Delivery.

ARTICLE VIII

Billing, Payment and Audit

8.1 Billing and Payment Terms. As soon as practical following the close of the month during which deliveries occurred, Seller shall render to Buyer an invoice showing the quantity of gas delivered, the amount due, and such other billing information as identified in section 8.2 hereafter. Buyer shall make payment to Seller within 30 days of receipt of invoice.

8.2 Billing Information. All accounts of the Buyer shall be included on one monthly billing, submitted both in hard copy and in a mutually agreed upon electronic format. All applicable charges from AGL, billing period start and end dates and meter readings, gas usage expressed in therms, price per therm, and the extended cost shall be itemized by account and separately stated on the monthly invoice. Any additional billing information must be mutually agreed upon between the parties.

8.3 Audit. Each party shall have the right, at its sole expense and upon prior written notice, to examine the records of the other party to verify the accuracy of any statement, charge, notice or computation made pursuant to this Agreement. However, no adjustments shall be made to any statement charge, notice or computation after the lapse of twenty-four (24) months from the date of the issuance.

ARTICLE IX

Financial Responsibility

9.1 Financial Responsibility. If the Seller fails to deliver the quantity of gas required by Buyer, Seller shall be liable for and remit payment to Buyer within ten (10) days of presentation of an invoice from Buyer for any incremental costs above the contract price of replacement supplies purchased by Buyer plus any related penalties or charges. This shall include failure of the Seller to obtain control of an account from the current supplier if the County has met all contractual obligations regarding supply of that account. Seller shall have the right to terminate service after 30 days if, without notice, Buyer fails to (a) timely pay any amount due except if there is a bona fide dispute and Buyer has complied with sections 8.1 and 8.2 herein above, (b) meet the Seller's credit requirements, (c) provide requested financial assurances or (d) becomes subject to any bankruptcy proceedings.

ARTICLE X

Force Majeure

10.1 Force Majeure. Neither party shall be deemed to be in default of any provision of this Agreement or liable for failures in performance resulting from an occurrence of force majeure. The term Force majeure shall mean any cause not within the control of the party claiming relief including: acts of God, strikes, lockouts, or other industrial disturbances, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and restraints of governments and people, civil disturbances, explosions, failure of pipeline, or any other cause which by the exercise of reasonable diligence such party could not have prevented or is unable to overcome, provided the party claiming such inability shall give written notice thereof to the other party as soon as reasonable possible after the occurrence of such event.

ARTICLE XI

Miscellaneous

11.1 Changes to Terms of Service. Buyer has 48 hours immediately following execution of this agreement to rescind this Agreement, without penalty, by notifying Seller of desire to exercise such right. Seller has the right at any time to propose changes to the terms of service under this Agreement with 30 days notice. Notwithstanding the 60 day notice provision set forth in the Term provision of this Agreement, within 10 (ten) days of the notice to change these terms, Buyer may give written notice of termination of the Agreement.

11.2 Assignment. Seller and Buyer shall not assign this Agreement without the prior written consent of the other party.
